Cairo, Egypt

SUMMARY

I build scalable SaaS platforms and modern web applications that solve real business problems. As a Full Stack Software Engineer, I specialize in Laravel, React, Next.js, PHP, JavaScript, SQL, Docker, and cloud technologies, delivering end-to-end software solutions from concept to deployment. My experience as a Technical Account Manager strengthened my ability to gather and analyze business requirements, communicate effectively with clients and stakeholders, coordinate with cross-functional development teams, oversee project delivery, and ensure that technical solutions align with business goals while maintaining high quality and client satisfaction.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Tailwind CSS

Backend: PHP, Laravel, REST APIs

Database: MySQL, SQL

Tools & Technologies: Git, GitHub, Docker, Linux, Apache, Postman, Composer, NPM

Cloud & Deployment: VPS Deployment, Cloudflare, Domain & DNS Management, SSL Configuration

EXPERIENCE

Founder & Full Stack Software Engineer — MenuPrex (May 2026 – July 2026)

A complete SaaS platform for restaurant management featuring QR menus, POS, subscriptions, and Saudi ZATCA-compliant e-invoicing.

Founder & Full Stack Software Engineer — ToolTop (February 2026 – April 2026)

A multilingual SaaS platform providing 25+ online tools for PDF, images, text processing, SEO, and AI-powered productivity.

Full Stack Software Engineer — PLAY ZONE (September 2025 – November 2025)

A comprehensive management system for PlayStation lounges and entertainment cafés, including reservations, inventory, sales, and employee management.

Technical Account Manager — Tqnia IT (January 2025 – August 2025)

Worked at Tqnia IT in New Cairo as the primary technical liaison between clients and development teams, managing software requirements and project delivery.

Front-End Developer — HotSpot (September 2024 – October 2024)

Developed responsive user interfaces for an eCommerce platform using modern frontend technologies with a focus on performance and user experience.
